

Green Valley Lake NEWSLETTER

Volume XXIX - Summer Edition - 2023

CONSUMER CONFIDENCE REPORT

The Consumer Confidence Report, or CCR, is an annual water quality report that the Safe Drinking Water Act (SDWA) requires GVMWC to provide you with. The purpose of the CCR is to raise customers' awareness of the quality of their drinking water, where their drinking water comes from, what it takes to deliver water to their homes, and the importance of protecting drinking water sources.

To view your 2022 Consumer Confidence Report and to learn more about your drinking water, please visit the following URL: <https://www.gvmwc.org/ccr> or scan the QR code.

If you would like a paper copy of the 2022 CCR mailed to your mailing address or would like to speak with someone about the report, you may call (909) 867-2912, complete the form on the back of this page or, or email office@gvmwc.org.

UPDATE YOUR CONTACT INFORMATION!

In an effort to provide the best customer service, Green Valley Mutual Water Company is asking Shareholders to update their contact information. This will allow us to better contact shareholders regarding their accounts or during an emergency situation. Please complete and return the form on the back of this page or complete the online form by visiting www.gvmwc.org/contactform

BOARD OF DIRECTORS

Thank you to all of the shareholders who participated in the Annual Shareholder Meeting, either by attending in person or returning your proxy card. Shareholders were provided with a summary of the Company's operations and plans for the coming year. This year's Board of Directors are as follows:

[Ira Leader, President](#)

[Steve Christman, 1st Vice President](#)

[Kathleen Benjamin, 2nd Vice President](#)

[Scott Burger, Secretary/Treasurer](#)

[Jerold Miller, Director](#)

[Richard Vouga, Director](#)

[Ed Gray, Director](#)

[Kit Kjelstrom, Director](#)

[Shayla Antrim, Director](#)

THE IMPORTANCE OF TURNING OFF YOUR WATER:

We cannot stress enough the importance of shutting off your water when leaving your cabin. This past winter, due to shareholders not turning off their water, our system lost more than 2,000,000 gallons of water solely from customer leaks. These leaks and the additional expenses incurred could have been avoided if turn-off valves had been used.

Green Valley Mutual Water Company requires all homeowners to have a properly installed stop and waste valve (Policy 4300.11). These valves allow homeowners to turn off the water supply at the cabin when vacated no matter what time of the year. Properties found not in compliance will receive a \$250 fine (Policy 4200.05). The owner is also responsible for any water usage caused by leak.
